

Andrew Langan-Newton

Dear Resident

I am grateful to be writing to tell you of my candidacy in Rushen in the General Election to be held on 23 September 2021.

I am a passionate historian, economist, and environmentalist, living with my wife and our children in Port St Mary. A former Castle Rushen High School pupil, I now practise as a qualified Manx Advocate since returning to the Isle of Man after my studies at Durham University and Manchester College of Law. In 2015 I participated in the Commonwealth Youth Parliament in Australia. This was a pivotal experience for me, one that inspired me to create a platform for sustainable change for the Isle of Man - the Isle of Man Green Party. I have been elected as leader by its growing member base each year since 2016.

At the centre of my campaign will be:

- ✓ **Future of Work** – we need the right skills, education, and investment in our current and future workforce in the Isle of Man.
- ✓ **Future of Energy** – we need to deliver an energy system that is reliable, affordable, and does not harm our community through pollution and climate change.
- ✓ **Future of Transport** – we need a safe, affordable, and sustainable public transport system that connects the Isle of Man, creates opportunity and improves quality of life for everyone.

I hope to meet with you over the next months, but if you wish to speak to me, you can contact me and follow my campaign updates in the following ways: -
