Dear Resident,

I am grateful to be writing to tell you of my candidacy for the Isle of Man Green Party in Peel & Glenfaba constituency, for the elections in September 2021. Born in Glen Maye in 1971, I have been raised on the island, working on the farms in Glen Maye in my youth and later studying at the Isle of Man Technical College. I have set up several businesses over the years, including an environmentally friendly industrial cleaning business, Website design and I am currently the proprietor of Ken Quine's hardware shop in Port Erin. I have lived for ten years in the Netherlands working as an ERP computer consultant before I returned to the island in 2004.

The IOM is facing some difficult times ahead but I am committed to protecting livelihoods, the nation's health and all the good things we like about living on our island whilst also striving for changes to the way we are governed. No one should be left behind, and there should be no wastage of the resources or badly thought out investments in creating a culture that succeeds. As your MHK,

my three key messages for you as a voter are: -

1. **Experience** - I am warm-hearted and sharp-minded. With graduate and post graduate degrees in law and legal practice, and experience at law firms throughout the Island, as well as running a business at the heart of the community. I recognise proper scrutiny and good governance are at the heart of successful Governments & local authorities.
2. **Commitment to Our Future** - As your political representative, I will be a catalyst for sustainable environmental change in Peel & Glenfaba, for greener outcomes for our housing, waste, energy and transport needs and improve our community spaces and for holding our government accountable. When we can and should be doing better.
3. **Focused Solutions** - As a member of the Green Party Committee. I have played an active role advocating sustainable solutions to our long and short term growth. Often the solution lies in the details. Asking the right questions, negotiating and standing up for what is fair and honest, is my commitment to yourselves and our Island.

You can follow my campaign updates below and contact me by telephone or email indicated above.
